## **Values on Campus: Ethics and Values Programs in the Undergraduate Curriculum**

by Bruce Jennings, James Lindemann Nelson, and Erik Parens

The product of a conference of college educators convened by The Hastings Center, Values on Campus seeks to develop and assess different pedagogical strategies for responding to the competing expectations of values education.

1993      12 pages      \$4.00

---

## **Bioethics Education: Expanding the Circle of Participants**

by Barbara Thornton and Daniel Callahan

This report offers curricular guidelines in response to growing educational needs in bioethics.

1992      32 pages      \$4.00

---

## **Case Studies in Ethics and Medical Rehabilitation**

Edited by Janet Haas, Arthur L. Caplan, and Daniel Callahan

This unique collection of case studies focuses on special and often neglected ethical issues in medical rehabilitation.

1988      61 pages      \$4.00

---

## **Congress and the Media: The Ethical Connection**

by Daniel Callahan, William Green, Bruce Jennings, and Martin Linsky

This report explores the complex relationship between Congress and the media and between individual legislators and journalists, using the coverage of ethics regulations in Congress as a case study.

1985      52 pages      \$4.00

---

## **The Ethics of Legislative Life**

A Report by The Hastings Center

This report offers a comprehensive discussion of theoretical and practical concerns about the ethical standards and obligations of legislators.

1985      68 pages      \$4.00

---

## **On the Uses of the Humanities: Vision and Application**

A Report by The Hastings Center

Surveying the new roles that philosophers, historians, and literary scholars are playing in governmental and clinical settings, this report argues that the applied humanities offer an essential sense of vision to modern society.

1984      73 pages      \$4.00

---

## **The Place of the Humanities in Medicine**

by Eric J. Cassell

Eric J. Cassell reviews how the humanities have increasingly been integrated into medical school curricula and assesses the future prospects of medical humanities programs.

1984      56 pages      \$4.00

---
